

# World's Longest Beaded Necklace

*Beading Miles of Smiles...one bead at a time.*

The Portable Playhouse, a non profit 501c3 organization, along with a New York based bead company, have joined together in a unique way to raise money for our specialized art therapy program. Our goal is to create the world's longest beaded necklace. We will be working under the guidelines of the Guinness Book of World Records to record and certify our efforts.

This fundraiser will help us serve all hospitalized children, (regardless of their illnesses) and all women fighting cancer in outpatient cancer centers across the country. We have already worked with tens of thousands of children and women in hospitals and cancer centers and are looking for your help so that we can reach many more!

For only a \$1.00 donation, a bead will be put on this record setting necklace located at our national headquarters, and we will document the first name, last initial, age, and your hometown , along with your bead number(s), for you or in honor of your loved one(s).

A counter indicating the number of beads for the necklace will be updated daily on the site as well as recorded at our national headquarters and you will be part of a Guinness World Record.

Please print out this flyer for you or your community group, youth groups, schools, corporations, local businesses and share with all your family/friends.

**Help us achieve this goal and we will connect the world, one bead at a time.**

We all need hope, we all need to stay connected with each other, and we all need to be a part of something bigger than ourselves." Please join us!!!
